Ira J. Chasnoff, M.D., an award-winning author, researcher and lecturer, is president of NTI Upstream and a Professor of Clinical Pediatrics at the University of Illinois College of Medicine in Chicago. He is one of the nation's leading researchers in the field of child development and the effects of maternal alcohol and drug use on the newborn infant and child. Dr. Chasnoff received his medical degree from the University of Texas Health Science Center at San Antonio. He has authored eleven books; his most recent book, *The Mystery of Risk*, explores the biological and environmental factors that impact the ultimate development of alcohol- and drug-exposed children and presents practical strategies for helping children reach their full potential at home and in the classroom. These videos were purchased from <http://www.ntiupstream.com>.
